

Travel Tips & Packing List

Visas

Visas can be obtained in advance from the relevant Madagascar Embassy in your country of origin. A fee of 115,000 Ariary (about €35 euros/ \$37 USD/ 32 GBP) will be collected from each person wishing to obtain a tourist visa of 30 days or less (both adults and children). Visas can also be obtained on arrival at the airport and all major currencies are accepted. A passport valid for at least 6 months with 2 free pages is required.

Flights

The main international carriers to Madagascar are Air Madagascar and Air France with flights from Europe (mainly from Paris). There are also daily flights from South Africa to Antananarivo on SA-AirLink and Air Madagascar. Kenya Airways fly three times a week from Nairobi. Mauritius can also be a useful hub with regular flights to Tana. Ethiopian Airlines and Turkish Airlines also fly several times a week to Antananarivo.

Transport

The main way to travel within Madagascar is by air and then 4x4 vehicle. Access to all MCC camps & lodges is by 4x4 vehicles or private charter only - the definition of 'off the beaten track'!

Money

Although the official unit of currency in Madagascar is the Ariary, many of the island's people still use their old unit; the FMG (Franc Malagasy). This can be a little confusing as prices are often given in FMG, while notes are denominated in Ariary! 5 FMG is equal to 1 Ariary and the exchange rate is approximately US\$1 = 3000 Ariary or 15,000 FMG. Euro or US dollars are the recommended currencies for changing into Ariary. Please note that Mastercard, Maestro and American Express are very hard to use, so we recommend that you bring a VISA credit/debit card or budget to cover your entire trip with cash. Since many of the properties you will stay in are all inclusive, it is likely you will use cash only for tipping and shopping in the local markets.

Health

Malaria is prevalent in Madagascar so anti-malarial tablets and a good insect repellent are strongly recommended. Please do consult your physician or specialist travel clinic before departure. Yellow Fever certificates are required by those arriving from a yellow fever endemic country (such as Kenya or Tanzania). Please note that medical facilities in the country are basic and you should enquire and make MCC aware of any pre-existing medical conditions. We insist that all clients travelling with MCC have full medical insurance, including emergency evacuation cover.

Language

As a former French colony the French language is widely spoken in the larger towns and cities throughout Madagascar. However, English was added as an official language in 2007 and is slowly becoming more widely spoken. In rural areas it is common for only Malagasy to be spoken but our MCC staff will always be there to help you translate and explain situations and events in fluent English. A few words of Malagasy are always helpful: Hello - "Manahoana" (in the highlands) or "Salama" (in the South East) Thank you - "Misaotra"; Excuse me - "Azafady"; Goodbye - "Veloma"

Accommodation

In addition to Mandrare River Camp and Manafiafy Lodge there are a growing number of luxury high-end hotels in Madagascar, although this sector is still quite small. Non luxury 2/3 star hotel accommodation is available throughout Madagascar and is generally clean and comfortable. Madagascar Classic Collection will recommend only the best quality boutique hotels available in each location you wish to visit.

Security

As with any developing country petty crime does exist, particularly in the large urban areas, this is generally limited to snatch theft and is opportunistic. We recommend that clients leave valuables in their hotel safe and do not wear easy to remove jewellery in markets or busy places. Incidents of violent crime against tourists are rare and in general Madagascar is a country in which visitors rightly feel very safe.

Daily life in Madagascar (GMT +3)

Madagascar is predominantly a rural country with most of the population involved in farming and livestock. The pace of life is slow and relaxed, the people are friendly and it is a great country to both visit and live in. As in many developing countries things don't always go exactly according to plan, that's part of the charm. The best maintained vehicles still get flat tyres, unexpected rain can flood roads and flights can be delayed. If you relax and enjoy the goings on around you, including any unforeseen problems, you will have a fantastic holiday and see some of the most interesting and beautiful wildlife and culture on the planet.

Tipping

Porters - 3,000Ar

Park guides - 20,000-40,000Ar / 5-10 Euros PER DAY pp Private guides - 20,000-40,000Ar / 5-10 Euros PER DAY pp

What to bring!

- A soft bag is better than a hard suitcase. Total luggage is limited to 20kg on charter flights. However, laundry services are available in all hotels and is usually either free or very inexpensive.
- Good pair of walking boots
- Walking pole/stick if necessary
- Head torch or wind up torch (Bright LED)
- All camera equipment, chargers and batteries
- Binoculars for birders
- Good insect repellent (DEET preferable)
- Warm clothes for May – August winter period
- A light sweater/fleece for early morning chill (year-round)
- Light waterproof jacket
- Long sleeve tops and long trousers for forest walks
- French Style 2-pin plug adaptor (220v)
- Visa debit/credit
- Sun hat, sunscreen and sunglasses
- Bradt Guide to Madagascar
- Swimming gear
- All medication you may need including Malarial Medication (consult your physician)
- Passport with 6-months validity and two clear pages
- Reading materials (these are difficult to obtain in Madagascar)

Donations to schools:

We encourage guests not to give sweets or money to local children. If you feel you wish to help local schoolchildren, please talk to your guide or manager and they will assist you with this. If you intend to donate any materials for a local school, we recommend: note books, pens, pencils, drawing equipment, sports equipment, etc.
